PREVIOUS AGREEMENTS

WITH COUNTY: \$5,417,500

ORIGINAL AGREEMENT

AMOUNT: \$5,062,500

PREVIOUS MODIFICATIONS: The first amendment (R-470-05) increased the agreement by

\$2,531,250. The increase was due to changing field conditions (cancellation of abutting projects like Perimeter Road, encountering duct banks and other utilities that were unknown, re-design of interfaces between South Terminal and deferred projects, etc.), shifting airline alliances, new Transportation Security Administration (TSA) mandated security measures and fast tracking of construction to avoid delay impacts that would have an effect on the North Terminal Development project. The first amendment increase consisted of: \$2,500,000 for A/E services; \$6,250 for the Inspector General Audit Account, and \$25,000 for the IPSIG account for an adjusted PSA value of

\$7,593,750.

The second amendment (R-810-06) increased the agreement by \$1,428,750 to provide for continuing A/E work related services and construction administration through the extension of the Phase 1 substantial completion date. The second amendment increase consisted of: \$1,500,000 for A/E services; \$3,750 for the Inspector General Audit Account and deleted the complete value of the existing IPSIG Audit Account of \$75,000 for an

adjusted PSA value of \$9,022,500.

AMOUNT OF RECOMMENDED MODIFICATION:

Increase the PSA amount by \$3,500,000 for A/E services and

\$8,750 for the Inspector General Audit Account.

ADJUSTED AGREEMENT

AMOUNT: \$12,531,250

Honorable Chairman Bruno A. Barreiro and Members, Board of County Commissioners Page 3

PERCENT CHANGE OF THIS MODIFICATION COMPARED TO CURRENT VALUE:

39%

(148% over the original amount approved by the Board)

JUSTIFICATION:

It is recommended that the Third Amendment to the Professional Services Agreement for Supplemental Architectural & Engineering (A/E) Services be approved to provide extended services required to support the South Terminal Program's completion schedule.

Since April 2002, the South Terminal Program, which this PSA is supporting, has incorporated over \$157 million in charges because of evolving scope increases.

This Third Amendment will provide for extended architectural & engineering design services for bulletins, field representation services, responses to construction contractor requests for information on design and constructability, support to construction contractor change proposal negotiations, permitting support, and commissioning services during the extended program schedule duration. The services are required to obtain expedited responses to construction contractor requests for information which impact critical construction activities, increased participation in construction contractor negotiations for commercial resolution of the more than 1,000 exclusions to POJV Change Order 7, Global Settlement, and for expedited revision and finalization of design drawings to support the permitting process with the Building Department to secure Certificates of Occupancy for the facility. Also provided for in the recommended Third Amendment are A/E support services for several approved South Terminal support projects which include dual taxiways, Park 4 bridge connector and security lightscreens.

Per state statute, only the original Engineer of Record (EOR) can perform certain services related to the project, this firm is required to subcontract with the EOR for much of the work. This affects this consultant's ability to meet the contract measures.

This issue has been reviewed with the Department of Business Development (DBD) in great detail, and on October 11, 2006, the Review Committee approved the firm's request for reduction in the contract measure to 19%.

The increase of \$8,750 in reimbursable expenses is for the required 0.25% of the contract value for the Inspector General.
